A Workshop

## The Magic of Beliefs: Coming Into Wisdom About Money

Are you bound by your **unconscious beliefs** about **money**?  
Is your **money relationship** driving your life choices into a **ditch**?  
Do you feel **stuck** with no **guiding light** through the tunnel?

### In this powerful workshop, you'll learn:

- The 3 categories of money and what drives those money relationships.
- The conscious and unconscious limits you put on your ability to earn and save..
- How to artfully reboot your belief systems to help increase your income and reach your goals.

The series will start with a no-charge introductory session in which I'll lead you in creating your own confidential Money Map. This Map explores 3 money categories and helps you understand the emotions and unconscious programming you use to hold yourself back.

After this complimentary class, you'll have the chance to register for the next 3 workshop sessions for only \$59.95 total. All sessions will be done live as a teleclass (you will phone in to my teleclass line to join us on a group call). You can join in wherever you are located. The series will be recorded and you will have access to listen as many times as you want as you process this information.

*The complimentary first class will be on  
Monday, August 8, 2016 from 6:30 – 8:00*
